

St. John Ambulance

Opioid Poisoning Response Training E-Learning Course

Course Description:

Online Only. With widely increasing numbers of opioid poisonings across Canada, St. John Ambulance, in partnership with Pharmasave RespectRX Pharmacy, is offering this critical, self-paced online training program to support all Canadians seeking nasal naloxone administration training. After completing this course you will be able to recognize stigma and harm reduction best practices, identify types of opioids and their impact, administer nasal naloxone and develop a self-care plan.

No Naloxone Kits will be provided for the completion of this online course

Duration:
90 min

Topics covered in the training include:

- Stigma and harm reduction
- Types of opioids and their impact on the brain
- Nasal naloxone administration
- Personal trauma management
